For hundreds of years, Christianity has been celebrating Easter and has, for the most part, been unaware of the significance of the Passover. Isn't it time we re-examined this in light of the scriptures? Are we keeping tradition or truth?

Come and share a day with us when we will examine this and the relevance of other Biblical festivals. Come and be part of the learning and discussion that will enrich your understanding and strengthen your faith.

Discussion

During the day there will be opportunities to share in discussions on the following subjects:

Is the Church the new Israel?

Has the Church taken the place of Israel? Have the blessings promised to Israel now transferred to the Church?

The Commonwealth of Israel

What is this? How does it affect me? A consideration of Romans 11 and Ephesians 2.

Paul and the Law

Did Paul and Yeshua disagree concerning the Law?

The Pattern of Biblical Community

The normal pattern of life for the Acts 2 congregation included signs and wonders, explosive growth, and contagious fellowship. What did these people have that produced such vibrant community? Can we experience the same today?

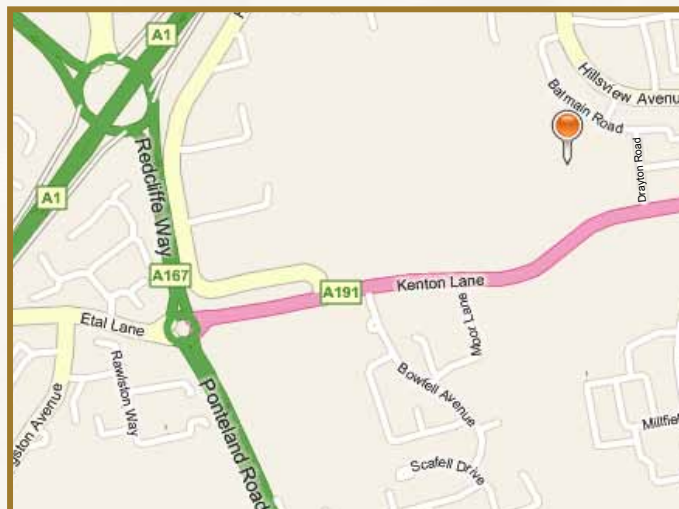

Dancing & Dance Workshop

One of the workshops will be to give you experience of Hebraic dancing.

Fellowship

During the day there will be times to relax and interact over a cup of tea or coffee.
